## Technicians Update

December 14, 2020

### Career Moves

Dear Brothers and Sisters,

As many of you know, there have been grievances filed over the one-time career move utilization during a RIF. We have been working with the Company to remedy this situation. We are happy to report that individuals that have been RIFed can now use the career move if they are planning on staying at their new location. This information was relayed on the town-hall call on Friday night.

No one ever wants to be affected by a furlough, but in these difficult times, this contract provision will provide a better economic outcome for those going through this.

In Solidarity,

Vinny Graziano

Coordinator Technician and Related
